BUSINESS FROM THE FLOOR
1. Paul Youmans, Director of Pathways 2020 distributed copies of the Cowlitz County Community Report Card 2013, which evaluates economic and social determinates within the county that influence the health of the people and communities. Mr. Youmans thanked councilmembers for their ongoing support of Pathways 2020 program goals, through their support of Cowlitz-Wahkiakum Council of Governments and also the city’s commitment for trail and park infrastructure improvements. Determinates used for evaluation within this report include economic vitality, education, access to healthy foods, health, social cohesion and access to physical environment. Each of these sections concludes with a ‘call to action’ to promote ideas for improvement for individuals, groups and communities. The full report can be accessed from their website located at www.pathways2020.org

Mayor Helenberg thanked Mr. Youmans and the Pathways 2020 board for their good work within the community.

2. Carey Mackey, representing Red Canoe Credit Union, requested council permission to place signs on city right-of-way from July 29th through August 16th for their third annual Fill The Canoe School Supply Drive. This campaign has resulted in over 1000 pounds of school supplies each year being donated to local schools. As in the previous campaigns, Red Canoe will again match the amount donated. Councilmembers noted the signage is the same as in previous years. By consensus, councilmembers approved the request for placing the event signage on city right-of-way for the dates noted at both the north and south entryways.

DEPARTMENT REPORTS
Public Works Director David Vorse
1. Provided an update on the city’s Public Works Trust Fund application, DNR Land Swap project and the city’s efforts to obtain State Capital budget funding for residential streets.

Vorse stated he has received an e-mail from Amber York, Senior Legislative Assistant to Representative Orcutt. She noted there does not appear to be any provisional language included in the State’s budget for the land swap project. Ms York also advised there does appear to be a $504,000 appropriation for the city to be used on residential streets. This appropriation can be found in Section 1078 of Senate Bill 5035. Vorse
stated the $350,000 Public Works Trust Fund application to fund water main upgrades was not funded because the State eliminated all of appropriation of Public Works Trust Fund for use in the State General Fund to balance their biennium budget.

Vorse stated he still needs to confirm the city’s appropriation. If the city is to take advantage of those street funds, councilmembers must determine how utility infrastructure upgrades are to be funded. In answer to Councilmember Pingree’s question, Vorse stated he would assume that the appropriation funds would need to be spent by the end of the State biennium. He noted that councilmembers may need to prioritize which water mains to do, or they may need to decide if pursuing other funding loan options would better benefit the city. Councilmember Teter recommended the city research the option of applying for Rural Development loan funds to pay for the water main upgrades.

Councilmembers noted the next Castle Rock Transportation Benefit District meeting is scheduled for July 22, 2013 at 6:30 p.m. in the Castle Rock Senior Center.

Vorse stated due to RCW limitations of the use of public works personnel for projects, the city may need to contract out those utility main upgrades.

2. Councilmember Pingree suggested the city consider doing something to assist with traffic control at Lion’s Pride Park during July 4th events. It was noted that each year several private individuals bring their own fireworks to ignite at the park on July 4th; which attracts spectators to the area. This year Mayor Helenberg and Councilmember Pingree noted the park was very congested with spectators and create a traffic issue for motorists. The mayor asked Chief Heuer to evaluate traffic control options for next year.

In answer to Mayor Helenberg’s question, Covington stated she does not know how much it will cost to be included on the General Election.

In discussion, Councilmember Teter stated he felt this process was highly inefficient. He stated if ongoing funding for the library is needed, a library district should be formed. Mayor Helenberg suggested Councilmember Teter contact Tom Quigley from the Library Board to discuss this further.

4. Councilmembers reviewed the quote provided by Ventek International to provide an alternative merchant processor interface through Ventek’s Interim Gateway Services (IGS) for processing credit card payments from the boat launch pay station. This became an issue when Ventek’s merchant processor, IP Commerce, discontinued service with Ventek International effective June 30th. Notice of this issue was received by the city on June 20th when Ventek International offered this alternative.
