Vorse contacted City of Longview Public Works Director Jeff Cameron, who suggests forming a committee to review options and provide a recommendation to council.

In response to a question from Councilmember Queen, Vorse clarified the options to raise funds are:
• Impose up to .2% sales and use tax with voter approval;
• Incorporate a car tab fee with voter approval;
• Enact an excess tax with voter approval;
• Secure a 1.5% loan or
• Bond which must be repaid.

Mayor Helenberg appointed David Vorse, Ryana Covington, Ellen Rose and Ray Teter to the street repair financing committee. The mayor suggested this committee consist of seven members and asked Vorse to consider citizens at large and/or business owners to complete the committee.

Many good comments were obtained and most were supportive of the project. Many of the suggestions made at this meeting have been adopted into the plan. Residents recommended researching ways to reduce speed and the amount of non-residential traffic. This project should be ready to request bids by May, for construction this summer.

Covington reviewed Water and Sewer Revenues and Expenses First Quarter Comparison for 2012 and 2011 which reveals a year-to-date loss of $50,177. In response to a question from Councilmember Teter, Covington confirmed that historically this loss is reduced in the second quarter. <tr>
<td>Aerzen USA Corp</td>
<td>$65,797.40</td>
<td>$17,614.12</td>
<td>$3,228.00</td>

</table>

These blowers would replace the two blowers that are continually failing. The new blowers will have a higher pressure capability. Johnson recommends approval of the base bid from Aerzen USA Corporation.
Councilmember Teter made a motion, seconded by Queen to approve the base bid option from Aerzen USA Corporation in the amount of $65,797.40 for two aeration blowers.

This connection contains an outfall for hydraulic management, interpretive signage, a picnic shelter and benches to sit and enjoy the river & wildlife.
